

NEWSLETTER NO. 2 EULEVOTO 2011

Dear Volleyball lovers!

Welcome in new year 2011 – the year which gives us EuLeVoTo for the first time in Middle East Europe. At least that's why the year is going to be successful.

We wish you many challenges and success and we're happy to meet you in 3 months in Warsaw.

So far 14 teams have been registered, mainly from Germany and Netherlands. We're very happy for that and we just can't help waiting for next teams. Sport emotions, good company are the part of the event. Just don't hesitate and join us!

We want to encourage you to visit Warsaw not only by a sport thing. Find out a little bit about the city.

The crest of Warsaw is a half woman half fish creature, which you can see in EuLeVoTo 2011 logo. Originally she holds and a sword in her hand as a symbol of protection of our capital city. This is partly connected to a martial aspect of Warsaw history as well as gallantry of polish people.

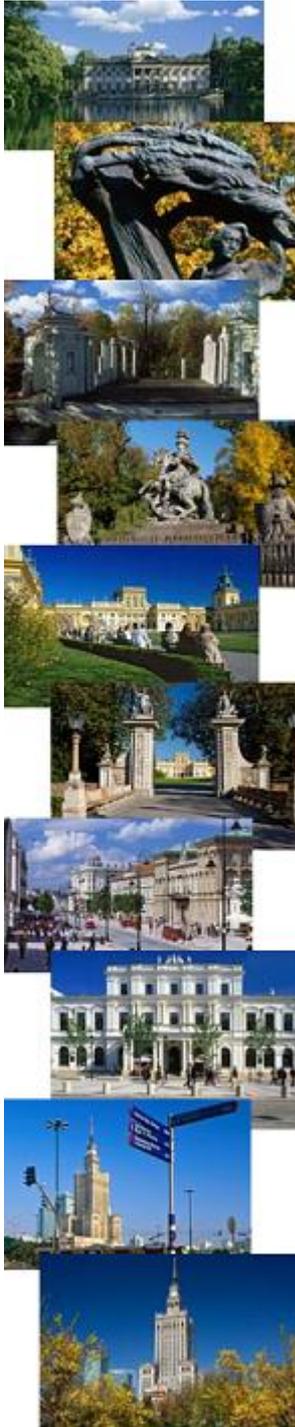

Nowadays' Warsaw watchword is „fall in love in Warsaw”. Why not have a try! :)

If you like the Warsaw' Murmaid you can walk towards the Wisla river. There on its bank you can see the monument of it. So when you're there you can go for a walk down the river and have a look at nice city overview.

If you make your way towards the old town in the marketplace you'll find another Warsaw Murmaid.

Just stay for a moment and look at the interesting architecture of the old town houses. They are so pretty that it's hard to imagine they were all totally destroyed while WW2.

One of must see is also a column of Zygmunt in front of the Royal Castle. This is a characteristic place in Warsaw where you go for a walk or make an appointment with a great overview of a national stadium which is intensively built for Euro 2012.

The old town is a great place for sightseeing so we hope it's going to be warm and a bit green by the time you'll be here. You can snoop virtual the city [here](#).

When it comes to green, did you know Warsaw is one of the 3 most green capital cities (after Berlin and Stockholm) in Europe. There are 76 parks and forests.

In some historic parks you can visit residences of polish kings of ancient times. Especially you should go to [Royal Baths in Warsaw](#).

The place with a great memorial of [Fryderyk Chopin](#), the world famous composer. It's been 200 years since he was born and so the great and modern museum dedicated to his life and works was established.

The interesting place to go is also [Royal Palace and the Gardens in Wilanow](#).

So we gonna host you while the greatest christian holidays. That's why the many museums are shut down. This is really shame, because there is much more to see like:

- [Kopernik Science Center](#) – a super modern object situated on the river bank
- [Univerity Library](#) – a magic place with a garden on its roof
- [The Museum of Warsaw Uprising](#).

Of course you have to see the most characteristic Warsaw building – [Palace of Culture and Science](#). The great symbol of Communism triumph in Eastern Europe. However controversial the building is the part of Warsaw for more then 50 years. You can go up on 114 meters high and enjoy the great view.

And finally, two more links to [History of the City](#) and [Warsaw Legends](#).

So we hope you have the curiosity and you'll come to Warsaw in large numbers!

We're looking forward to see you!
